

It is our sad duty to have to inform you that on Tuesday 3 August 2021, during his holidays in Cambrils (Spain), our director and majority share holder Drs. Aart Korteland has suddenly passed away.

Aart took over the more than 100-year-old family business Deno Compressors in 2004 and expanded it into a solid, reputable and well-known enterprise in the maritime business with a world-wide clientele.

In 2013 Aart reinforced the management of his business by appointing his son Aart-Pieter as co-director. Together they continued to expand and modernise the organization.

Until the day of his passing Aart remained totally and actively involved in the conduct of the business.

We will sorely miss his guidance and involvement.

He leaves us with a sound company, which we will continue in the same spirit.

On behalf of the management and all staff,

Deno Compressors B.V.  
Aart-Pieter Korteland  
Managing Director
